COMPANY

Founded in 1862, Ponzini S.p.A. can justly claim to be among the leading European manufacturers of brushes. This achievement can be largely attributed to the Company's high standards of technological know-how, consolidated experience and marketing skills.

Over recent years, substantial investments have been made in the areas of research & development, implementation of the productive structure, quality control and human resources. This ambitious policy has permitted the Company to maximize production flexibility, while assuring constancy of product quality. Particular attention is dedicated to the functionality and design of all products in order to satisfy both client and end-consumer expectations. The modern plant facilities are structured to offer the widest possible range of high quality and original packaging solutions.

These co-ordinated efforts have enabled Ponzini to attain a prime position among the most qualified manufacturers within today's brush industry.

UN LEADER EUROPEO

Il continuo successo della Ponzini SpA, uno dei maggiori fabbricanti europei di spazzole per capelli e pettini, va ampiamente attribuito al suo costante impegno nell'offrire ai clienti solo prodotti di alta qualità.

La linea MIRASTYLING è composta da una gamma completa di spazzole e pettini apprezzata da Maestri Parrucchieri ed Accademie di Acconciatura e destinata ad uso professionale.

A EUROPEAN LEADER

The continued success of Ponzini SpA, one of the most important european manufacturers of hairbrushes and combs, can be largely attributed to their constant desire to offer clients products of the highest quality.

The MIRASTYLING Line is composed of a full range of hairbrushes and combs appreciated by Master Hairstylists and Hairdressing Academies. These products are only available for professional use.
