Barber Pro stands out in the world of male grooming thanks to its beard care and shaving products, that permits to express the own manhood.

Barber Pro enhances man as absolute protagonist: man who takes care of his body and who loves being always good looking.

**VINTAGE STYLISH
GENTLEMAN**

THE BARBER PRO OFFERS AN EXCLUSIVE LINE OF GROOMING AND CARE PRODUCTS FOR BEARDS AND MOUSTACHES.

VACUUM HAIR DUSTBIN

cleanall

HAIR DUSTBIN

Equipped with a powerful 1400-watt motor, infrared sensors will detect the debris and activate the vacuum, causing it to completely suck up the pile before shutting off automatically.

A simple control switch makes it possible to turn the unit on and off manually as well.

The device works well on bare-floor surfaces like tile, wood, vinyl, or concrete, and it makes a nice addition to any hair salon, barber shop, workshop, garage, or busy household kitchen.

After shaving, always rinse your badger thoroughly and hang it to dry. Put your badger on our holder to preserve its exceptional quality.

Men's Shaving Kit combines the classic style and techniques of wet shaving with modern blade technology for an unbelievably close shave. The shave brush is crafted of pure badger bristle, relied on for hundreds of years for its ability to soak up water and transfer it to your face. The faux ebony handles of both the razor and brush add a touch of elegance to your daily routine.

Carbon is an ultralegere material that can withstand shocks. Almost unbreakable, this high-end comb is very economical. The precise finishing of the teeth offers a comfortable penetration into the hair.

These combs are provided with a shorter tooth that allows you to easily penetrate the hair and separate the mats without problem.

Comb Set - Black

Comb Set - Purple

Comb Set - Red

Comb Set - Pink

Professional ionic comb series made of high-quality plastic and comprising 9 different models. Ions help the hair to absorb moisture and give it a healthy, cared-for shine. The combs have rounded teeth to protect the hair and scalp. All models are anti-static, heat resistant and anti-bacterial.

Ionic: Natural substances contained in the material release ions while you comb. They help the hair to absorb moisture and lend it a healthy, well-groomed shine. **Hand-finished:** the extra rounding of the teeth is kind to hair and scalp. **Antistatic.**

Large 14.5cm

The assistant comb clip quickly and easily holds hair where you want it without tangling or damaging the hairstyle. Its beauty is its simplicity of design. Part of the clip holds one section of hair and the other part (with bristles) holds another section. Its like having a salon assistant at home.
